

We have expansion plans for our projects And for you too...

JINDAL
D.P. JINDAL GROUP

D P JINDAL GROUP- a conglomerate of Maharashtra Seamless Limited, Jindal Pipes Limited and Jindal Drilling & Industries Limited, having annual turnover of Rs. 3500 Crores, is one of the fastest growing industrial houses with undisputed leadership in Seamless/ ERW Pipes, Off-shore drilling and Exports. For our new Seamless Tube manufacturing Project and our existing operations, we need dynamic, energetic and high caliber professionals in following capacities at various locations (Maharashtra (MAH) / Ghaziabad (GZB) / Gurgaon (GGN)).

TECHNICAL

Head - Seamless /ERW Pipe Plant (MAH)

Ideal candidate would be B.E./B.Tech (Mechanical or Metallurgy) with relevant experience of 15+ years in heavy engineering like Steel Rolling / Seamless / ERW Pipe Rolling.

General Manager / DGM-Mechanical / Electrical (Project / Operations) (Seamless-MAH)

Candidates would be B.E./B.Tech. with an experience of 15+ years in heavy engineering like Steel Rolling, Seamless Pipe Rolling (candidates with experience in fabrication need not apply). For Maintenance, experience in breakdown/preventive maintenance, knowledge of hydraulic and pneumatic, well conversant with different mechanical components and experience in Hot Rolling mills will be preferred.

Manager-(Mechanical / Hydraulics / Maintenance / Production / Electrical / Electronics / Tool Room / Instrumentation / Quality Control / Civil / Fabrication (Project / Operations-MAH / GZB)

Candidates would be B.E./Diploma (Electrical/Electronics/ Mechanical/ Production/ Civil etc) with 10-15 years experience in mechanical maintenance / installation, erection commissioning of all Electrical/ Electronic equipment with in dept knowledge of hydraulic and pneumatic and National/ International standards & quality system of Pipe & Tube industries.

For Q.C: B.E. (Metallurgy) or B. Sc. /M.Sc. (Chemistry) with 10-15 years of relevant experience in quality control/quality assurance in similar industry would be preferred. NDT Level I / II / III Eddy Current / UT / RT / MPT / qualification and exposure to QMS, EMS & OHAS will be added advantage

Incharge-Furnace (Seamless-Project-MAH)

Ideal candidate would be BE/ Diploma in Mechanical or Metallurgy with experience of 10+ years in construction, erection, commissioning and operation of reheating furnace (oil fired) preferably - walking beam type furnace and rotary hearth furnace. The candidates should have sound knowledge to manage independently the assembly of furnace, selection of refractory and the operating parameters to control the oil fired furnace.

Engineer /Jr.Engineer (Mechanical / Hydraulics / Maintenance / Production / Electrical / Electronics / Tool Room / Instrumentation / Quality Control / Civil / Fabrication / Furnace (Project /Operations-MAH / GZB)

Candidates would be Diploma in (Electrical/Electronics/ Mechanical/Production/ Civil) having 2-8 years of relevant experience in Seamless pipe mill/Steel hot rolling mill/ERW pipe mill, Well versed with Mechanical/Hydraulic/pneumatic and electrical aspects of Machine utilities and should also be well acquainted with latest maintenance practices as well as ISO, EMS, OHAS etc.

Engineer Instrumentation candidate should have 5+ years of experience on reheating furnace, Instrumentation with knowledge on PLC control PID systems, controllers, thermocouple, recorders, flue gas analyzer, Calibration of Thermocouple etc. The candidate should have worked with industrial type of furnaces in steel / steel pipe reheating of higher capacity furnace, **not with very small forging type furnace.**

Engineer Furnace candidate would be BE/Diploma in Mechanical or Metallurgy with experience of 6+ years on operation of the furnaces like reheating furnace (oil fired). Knowledge on operating the furnace, fuel savings technology etc Knowledge on refractory will be additional strength

Consultant-Power Project (GZB)

Ideal candidate would be B.E./B.Tech. (Electrical/Thermal Power) with an experience of 15+ years in setting up of coal based Thermal Power Plant (5 MW). Retired professionals with relevant experience are welcome to apply for this position.

Technicians / Fitters / Electricians / Turner / Machinist (Project-MAH)

I.T.I., N.C.T.V. 4+ years of experience from similar type of industries.

COMMERCIAL

Vice-President / General Manager / DGM- Marketing / Market Development (Seamless- Domestic / Export) (GGN) (Age 45 years & below)

For VP (Marketing), ideal candidate would be, BE / MBA (Marketing) with 15+ years of experience with not less than 5 years as Head of Marketing

Division in Heavy Engineering Industry (preferably Seamless Tube) with good exposure of handling PSU Tenders.

For GM /DGM- Exports /Market Development, relevant experience of 12+ years would be required.

General Manager – Commercial / Accounts / HR & Admin / Materials Management / Technical Procurement / Liaison (MAH/GGN) (Age 45 years & below)

Ideal candidates would be B.Com./ M.Com./ B. E. (Mech./) CA / MBA with experience of 15+ years in the relevant field. All positions call for a High level of initiative, strategic thinking & maturity and excellent communication and inter personal skills.

For GM (Liaison) (MAH), knowledge of Marathi is a MUST.

Head-Security (MAH) (Age 45 years & below)

Retd. Army Officers (level Major& above) with an industry experience of minimum 5 years may please apply for this position.

Manager-Accounts /Costing, P&A (MAH) and Manager-Imports (GGN)

CA / ICWA / MBA (HR / International Business) with 10+ years of experience of working with a manufacturing company with knowledge of Oracle ERP.

Executive-(Imports / Accounts / Purchase / Marketing / Market Development) (MAH / GGN)

Candidate would be B.Com /M.Com. with relevant experience of 2-7 years, preferable from similar industry, Good communication and inter personal skills is a must.

1st class B.Com graduates with good analytical and inter personal skills and experience of 8+ years of working as Executive Asst. to Chairman / Managing Director / CEO may please apply for the position of Executive Asst. - CMD's Office (MAH / GGN)

Oracle Developer / Programmer - (MAH)

The ideal candidate would be Graduate with MCA/PGDCA/MSC Computers 4+ years working experience of ERP/Oracle Developer/Reports 6i (Forms of PLOSL)Oracle/D-2K in a manufacturing set up.
